

Preparedness and Response

Program Impact Summary

2025

Communities of Practice

Communities of practice promote collaboration and shared learning, strengthening consistent, high-quality practice across jurisdictions.

935

Members of the
Readiness & Response
Subcommittee

189

Members of the Public
Health Response &
Incident Surveillance at
Mass Gatherings (PRISM)
Workgroup

29

Members of the Rapid
Response Committee

Response Strategy

Rapid, pre-decisional
discussion and review on
emergent issues.

40

Rapid Response
Committee reviews
and discussions

Response Science

Sharing knowledge equips the public
health workforce to apply evolving
tools and best practices.

33

Preparedness and Response
scientific abstracts
presented at the 2025 CSTE
Annual Conference

Response Coordination

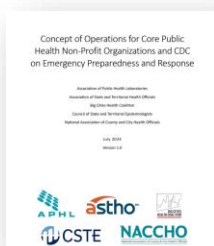

CSTE staff are fully engaged in response efforts to ensure situational awareness and support federal and STLT responses. Responses in 2025 included HPAI, measles, New World screwworm, Marburg virus, and more.

301

Preparedness, response, and recovery convenings with
CSTE staff leadership or participation

Collaboration & Planning

Collaborating within and across the public health system to prepare for and respond to emerging threats in a coordinated, flexible manner that maximizes resources.

**ConOps for Core Public Health Organizations -
APHL, ASTHO, BCHC, CSTE, & NACCHO**

CSTE ConOps
